

ADVANCE COLLEGE CHRONICLE

TERM TWO HIGHLIGHTS

It's been a big and exciting term! Here are just some of the standout moments.

WILD Outdoor Adventure – Our VPC students braved heights, built teamwork, and pushed themselves outside their comfort zones during the WILD program.

Student-Led Careers Expo – A huge success! Students took the lead in planning and presenting, helping their peers explore future pathways.

School Open Nights – A great opportunity to showcase student creativity, especially through the impressive Art displays.

"In Our Shoes" Project – Students designed and painted their own sneakers, expressing their identities through bold, individualised artworks.

L2P Driving Program – Going strong, with several students clocking up hours towards their Ps thanks to this fantastic support.

Ace the Wellbeing Dog – Classrooms were just that little bit brighter (and calmer) with Ace visiting students for pats and help with his obedience homework.

Locked In Escape Rooms

On the 19th of May, the VM 3&4 class went to Locked In Escape Rooms in Mornington. The class was split into three groups, with each having to 'escape' from a different room. I was in the Wizard's Lair, where we had to get into character, wearing robes and hats with magic staffs that helped us to complete our escape. I loved the decorations and set up; it made it feel truly magical and was a super fun activity to do for our PDS project.

VM 3&4 Class

A DAY IN THE LIFE ...

Certificate II in Hospitality (Industry Skills Course)

"We make coffee's in the morning, switching between roles every few weeks. We do our student assessments and get taught some things. We have some breaks in between and play Jeopardy". - Stephanie VM 1&2

Certificate II Sport and Recreation

"I really enjoy TAFE. I have made a lot of new friends. My class is really fun and my teacher is kind which makes the assessment tasks easier. We go to Monash University and practice running sports and we also go to the oval and have some fun kicking the ball around. I wouldn't want it to be any different". - Ruby VM 1&2

A DAY IN THE LIFE ...

Certificate II in Hospitality (Industry Skills Course)

"In my VET class we are learning how to work in a hospitality setting by learning to make and serve coffees and take orders along with using the cash registers and procedures that come with it.

While we learn a lot the learning is made interesting and fun by our trainer Giovanni who includes little fun stories that add to our lessons". - Cooper VM 1&2

UPCOMING PROGRAMS & EVENTS:
